T1 Battery

MICRO-SCRUBBER

- Cord-free flexibility allows cleaning even when people are present
- Optional lithium-ion battery provides up to 20 times longer battery life and can clean multiple times per day
- Compact, forward and reverse scrubbing and drying delivers quiet, best-in-class cleaning of congested spaces

QUIETLY DELIVERS A CLEAN AND SAFE ENVIRONMENT ANY TIME OF DAY FOR RETAIL, HEALTHCARE AND EDUCATION

COMPACT, MANEUVERABLE DESIGN, AND POWERFUL SCRUBBING ACTION

At 68 dBA, the T1 Battery Micro-Scrubber cleans small, congested areas safely and efficiently without disturbing customers, patients, students or employees. The T1 Battery Micro-Scrubber replaces mop and bucket cleaning and features excellent water recovery to reduce slip and fall accidents.

SCRUBBER CAN BE USED AND RECHARGED MULTIPLE TIMES A DAY

An industry first in this category, the T1 Battery Micro-Scrubber with the lithium-ion battery is a multiple-use, daily cleaning tool that is virtually always ready to clean. Compared to standard batteries, lithium-ion battery technology lasts up to 20 times longer in high-frequency, quick-charge applications.

CORDLESS DESIGN PROVIDES SAFE, FLEXIBLE CLEANING

The T1 Battery Micro-Scrubber eliminates cord hazards and constraints, so facilities can be cleaned regardless of the time of day.

TWO BATTERY OPTIONS TO MATCH YOUR NEEDS

The AGM battery option provides up to 45 minutes of high-performance cleaning – great for standard cleaning applications with 1-2 charges per day. The lithium-ion battery option provides up to 60 minutes of run time – excellent for multiple use charge applications where lightweight and longer run time is desired. Lithium-ion batteries can be charged three or more times per day.
