AUTO WHEEL

MAG WHEEL CLEAN & SHINE

DESCRIPTION / APPLICATION

AUTO WHEEL is an acid free cleaner formulated for wheel, tyres and hubcaps. Use on steel, aluminium, alloy, anodised, clear coated, plastic and factory painted surfaces.

AUTO WHEEL will remove brake dust, road grime and other associated soils. It is safe on all metals and will not attack sensitive metals such as magnesium or aluminium as well as any painted surfaces. AUTO WHEEL contains a high level of detergency which effectively allows it to remove all grease and oil which is impregnated throughout the brake dust in a "one-shot" operation

BENEFITS

- Concentrated liquid - ensures economical dose rates can be achieved as well as automatic dispensing
- Removes brake dust, grease and oil in one operation
- Eliminates the requirement for an initial degreasing stage
- Contains no corrosive acid - safe on all metals, glass and painted surfaces. Also ensures maximum safety to operator
- Contains a pleasant fragrance to mask any unpleasant odours
- Fully Biodegradable

DIRECTIONS FOR USE

MAG WHEEL CLEANING:

1. Clean one wheel at a time
2. Hold bottle away from body, approximately 15cm from wheel and spray evenly on wheel and tyre
3. Allow to soak for 60 seconds. For extremely dirty wheels, agitate with a soft brush
4. Hose off thoroughly and dry with a clean towel for a spot free finish

For spray chrome wheels please check with manufacturer for correct cleaning method.

IMPORTANT

Use only on wheels cool to touch. If necessary rinse with water to cool. Do NOT allow product to dry on any surface.

HEALTH & SAFETY INFORMATION

See separate Safety Data Sheet available on request.

PACKAGING

5 L Natural Bottles & 15 L Natural drums

PRODUCT:	CODE:
500ML (Bottle Only)	140955
5L	140950
15L	140960
